

Background

- The sale of Non-Performing Loans (NPLs) by Fannie Mae and Freddie Mac (the Enterprises) reduces the number of delinquent loans held in their inventories and transfers credit risk to the private sector. The sales help achieve more favorable outcomes for borrowers and local communities than the outcomes that would be achieved if the Enterprises held the NPLs in their portfolios. The sales also help reduce losses to the Enterprises and to taxpayers. NPLs are generally one year or more delinquent. Purchasers of Enterprise NPLs are subject to requirements published by FHFA, which have been enhanced over time as described on page 3 of this report.
- Fannie Mae offers and sells NPLs through a **National Pool Offering (NAT)**, and Freddie Mac offers and sells NPLs through a **Standard Pool Offering® (SPO®)**. These pools are generally large and geographically diverse, although some may be geographically concentrated.
- Each Enterprise also offers pools structured to attract diverse participation by nonprofits, small investors, and minority- and womenowned businesses. Fannie Mae refers to these pools as **Community Impact Pools (CIPs)**, and Freddie Mac refers to these pools as **Extended Timeline Pool Offering®s (EXPO®s)**. CIPs and EXPOs are smaller sized pools and are typically geographically concentrated. The timeline between transaction announcement and the bid due date is approximately two weeks longer than the typical marketing period, providing smaller investors more time to secure funds to participate in the NPL sale.

Introduction

- This report provides information about the Enterprises' sales of NPLs and borrower outcomes post-sale. The report contains the following key information:
 - Quantity and attributes of NPLs sold from August 1, 2014, through June 30, 2024.
 - Borrower outcomes, as of June 30, 2024, on NPLs sold through December 31, 2023.
 - Borrower outcomes post-sale compared to a benchmark of similarly delinquent Enterprise NPLs that were not sold.
 - Pool level information and outcomes, including the buyers of the NPLs*.
- Some pools have reached the end of the required four-year reporting period. Outcomes for these pools are held constant at the four-year mark.

^{*} The outcomes of a Freddie Mac pilot sale in August 2014 are not included in this report because the transaction was executed before FHFA issued NPL sales and reporting requirements.

Enhanced NPL Sale Requirements

Bidder qualifications: Bidders are required to identify their servicing partners at the time of qualification and must complete a servicing questionnaire to demonstrate a record of successful resolution of loans through alternatives to foreclosure.

Modification requirements: The new servicer is required to evaluate all pre-2009 borrowers (other than those whose foreclosure sale date is imminent or whose property is vacant) who apply for assistance for the U.S. Department of the Treasury's Making Home Affordable programs, including the Home Affordable Modification Program (HAMP).* All post-2009 borrowers who apply for assistance must be evaluated for a proprietary modification. Proprietary modifications must not include an upfront fee or require prepayment of any amount of mortgage debt, and must provide a benefit to the borrower with the potential for a sustainable modification.

Loss mitigation waterfall requirements: Servicers must apply a waterfall of resolution tactics that includes evaluating borrower eligibility for a loan modification (HAMP and/or proprietary modification), a short sale, and a deed-in-lieu of foreclosure. Foreclosure must be the last option in the waterfall. The waterfall may consider net present value to the investor.

REO sale requirements: Servicers are encouraged to sell properties that have gone through foreclosure and entered Real Estate Owned (REO) status to individuals who will occupy the property as their primary residence or to nonprofits: Starting in May 2021, for any NPL that becomes an REO property, during the first 20 days it is marketed, it can only be sold to buyers who intend to occupy the property as their primary residence or to nonprofits. In June 2023, this requirement was increased to 30 days.

Subsequent servicer requirements: Subsequent servicers must assume all the responsibilities of the initial servicer. Bidding transparency: To facilitate transparency of the NPL sales program and encourage robust participation by all interested participants, each Enterprise has developed a process for announcing upcoming NPL sale offerings. This includes an NPL webpage on the Enterprise's website, email distribution to small, nonprofit and minority- and women-owned business (MWOB) investors, and proactive outreach to potential bidders.

Reporting requirements: NPL buyers and servicers are required to report loan resolution results and borrower outcomes to the Enterprises for four years after the NPL sale.

Small pools: The Enterprises will offer small, geographically concentrated pools of NPLs, where feasible, to maximize opportunities for nonprofit organizations and MWOBs to purchase NPLs. The Enterprises will actively market such offerings to nonprofits and MWOBs and provide additional time for buyers to complete the transaction.

Further Enhancements to NPL Sale Requirements

High Loan-to-Value (LTV) loan modification requirements: For borrowers who apply for assistance and have a mark-to-market LTV ratio above 115 percent, servicers will be required to evaluate these borrowers for loan modifications (HAMP or proprietary) that include principal and/or arrearage forgiveness.

Proprietary loan modification standards: Proprietary modifications must either be fixed rate for the term of the modification or limit payment increases consistent with HAMP requirements: the initial period of a reduced interest rate must last for at least 5 years and interest rate increases are limited to 1 percent per year.

No "walk aways": If a property securing a loan is vacant, buyers and servicers may not abandon the lien and "walk away" from the property. Instead, if a foreclosure alternative is not possible, the servicer must complete a foreclosure or must sell or donate the loan, including to a government or nonprofit entity.

Restriction on "contract for deed": NPL buyers must agree that they will not enter into, or allow servicers to enter into, contract for deed or lease to own agreements on REO properties unless the tenant or purchaser is a nonprofit organization.

Restrictions on loans in a forbearance plan: Starting in June 2023, loans that are in a forbearance plan or are within 90 days of exiting a forbearance plan may not be included in a loan sale.

Highlights: NPL Sales Through June 2024

- Through June 30, 2024, the Enterprises sold 171,333 NPLs with an aggregate unpaid principal balance (UPB) of \$31.4 billion. The loans included in the NPL sales had an average delinquency of 2.8 years and an average current mark-to-market LTV ratio of 82 percent, not including capitalized arrearages. Average delinquency for pools sold ranged from 1.1 to 6.2 years.
- Fannie Mae sold 117,437 loans with an aggregate UPB of \$21.1 billion, an average delinquency of 2.8 years, and an average LTV of 79 percent.
- Freddie Mac sold 53,896 loans with an aggregate UPB of \$10.3 billion, an average delinquency of 2.7 years, and an average LTV of 88 percent.
- New Jersey, New York, and Florida accounted for 39.4 percent of NPLs sold. These three states also accounted for 47 percent of the Enterprises' loans that were one year or more delinquent as of December 31, 2014, prior to the start of NPL programmatic sales in 2015.
- From December 31, 2015 to December 31, 2020, the number of loans one or more years delinquent held in the Enterprises' portfolio decreased by over 60 percent. The number of newly delinquent loans nearly tripled in 2021 amid the COVID-19 pandemic as the Enterprises implemented new loss mitigation programs.* The number of loans one or more years delinquent decreased by over 80 percent from December 31, 2021 to June 31, 2024.

Highlights: Borrower Outcomes**

- The borrower outcomes provided in this report are as of June 30, 2024, based on the 165,643*** NPLs that settled by December 31, 2023. As of June 30, 2024, 80 percent of these NPLs had been resolved.
- Compared to a benchmark of similarly delinquent Enterprise NPLs that were not sold at the start of 2014, foreclosures avoided for sold NPLs were higher than the benchmark.
- NPLs on homes occupied by the borrower had the highest rate of foreclosure avoidance outcomes (47.0 percent foreclosure avoided versus 17.7 percent for vacant properties).
- NPLs on vacant homes had a much higher rate of foreclosure, more than double the foreclosure rate for borrower-occupied properties (75.7 percent foreclosure versus 28.9 percent for borrower-occupied properties). Foreclosures on vacant homes typically improve neighborhood stability and reduce blight as the homes are sold or rented to new occupants.
- Eight percent of permanent modifications of NPLs incorporated arrearage and/or principal forgiveness. The average forgiveness earned for these loans to date was \$63,601 (with the potential for borrowers to earn an average forgiveness of \$75,515). The average UPB of NPLs sold was \$183,055.

^{*} In response to the COVID-19 national emergency, FHFA directed the Enterprises to implement new loss mitigation programs including: 1) COVID-19 Forbearance from mortgage payments for up to 18 months, and 2) Flex Modification for borrowers with a COVID-19 hardship that increases eligibility and payment relief by providing an interest rate reduction regardless of the borrower's equity position.

^{**} Some pools have reached the end of the required four-year reporting period. Outcomes for these pools are held constant at the four-year mark.

^{***} The outcomes of a Freddie Mac pilot sale in August 2014 are not included in this report because the transaction was executed before FHFA issued NPL sales and reporting requirements.

Through June 30, 2024, the Enterprises sold 171,333 loans with an aggregate UPB of \$31.4 billion, an average delinquency of 2.8 years, and an average loan-to-value of 82 percent.

Combined Non Performing Loan Sales Activity To Date

Loan Count at Settlement

Settlement 171,333 loans

Average Delinquency

2.8 years

Non-Performing Loan Sales Loan Count At Settlement, by Year

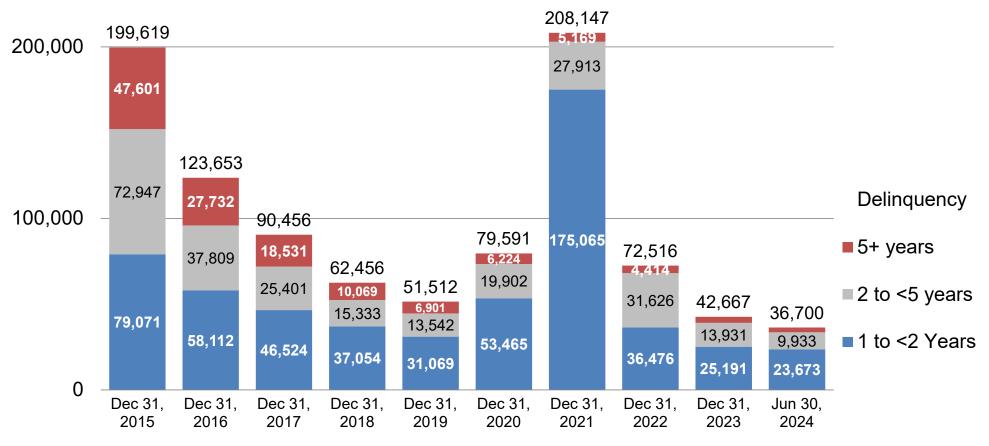

Within Year

From December 31, 2015, to December 31, 2020, the number of loans one or more years delinquent held in the Enterprises' portfolio decreased by over 60 percent. The number of newly delinquent loans nearly tripled in 2021 amid the COVID-19 pandemic as the Enterprises implemented new loss mitigation programs.* The number of loans one or more years delinquent decreased by over 80 percent from December 31, 2021 to June 30, 2024.

Number of Enterprise Loans Held in Portfolio, One Year or More Delinquent, by Delinquency

^{*} In response to the COVID-19 national emergency, FHFA directed the Enterprises to implement new loss mitigation programs including: 1) COVID-19 Forbearance from mortgage payments for up to 18 months and 2) Flex Modification for borrowers with a COVID-19 hardship that increases eligibility and payment relief by providing an interest rate reduction regardless of the borrower's equity position.

As of June 30, 2024, Fannie Mae sold 117,437 loans through 83 national, typically geographically-diversified pools and 22 smaller, typically geographically-concentrated NPL pools, with an aggregate UPB of \$21.1 billion, an average delinquency of 2.8 years, and an average loan-to-value of 79 percent.

^{*} Pool Type: SPO: Freddie Mac Standard Pool Offering, EXPO: Freddie Mac Extended Timeline Pool Offering, SWLO: Seasoned Whole Loan Offering.

^{**} The outcomes of these deals are provided in this report.

^{***} In August 2016, Freddie Mac sold loans from a securitization trust in which Freddie Mac owns and guarantees all securities issued from such trust.

New York, Florida, and New Jersey accounted for 39.4 percent of NPLs sold as of June 30, 2024. These three states accounted for 47 percent of the Enterprises' loans that were one year or more delinquent as of December 31, 2014. The distribution of NPL sales by state closely mirrors the distribution of the Enterprises' one year or more delinquent loans by state prior to the start of NPL programmatic sales in 2015.

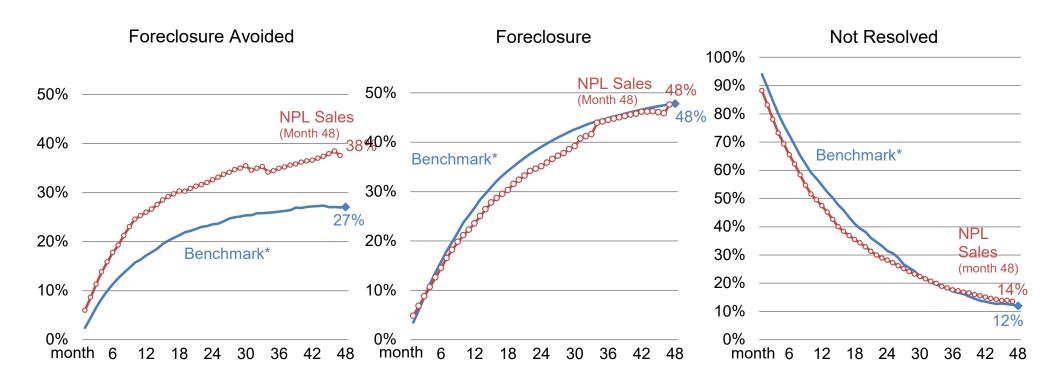

Geographic Distribution of NPL Sales - Top 10 States*

^{*} See page 16 for more information.

The borrower outcomes provided in this report are based on 165,643 NPLs sold and settled by December 31, 2023, and reported through June 30, 2024. Compared to a benchmark of similarly delinquent Enterprise NPLs that were not sold, foreclosures avoided for sold NPLs were higher than the benchmark.

Weight	Weighted Average Loan Characteristics											
	Loan to Value	Delinquency (years)										
Benchmark	93.9%	2.9										
NPL Sales	81.0%	2.7										

^{*} The Benchmark tracks the performance of the Enterprises' loans that were one year or more delinquent as of December 31, 2013, over succeeding years. It provides an historical reference for evaluating the performance of the loans sold in the NPL sales. The performance of the loans sold in the NPL sale will differ from the benchmark due to, among other factors, differences in loan characteristics (for example, mark-to-market loan-to-value ratio, geographic location and delinquency), differences in the Enterprises' and the NPL buyers' loss mitigation programs and servicing outreach, and changes in the macro-economic environment.

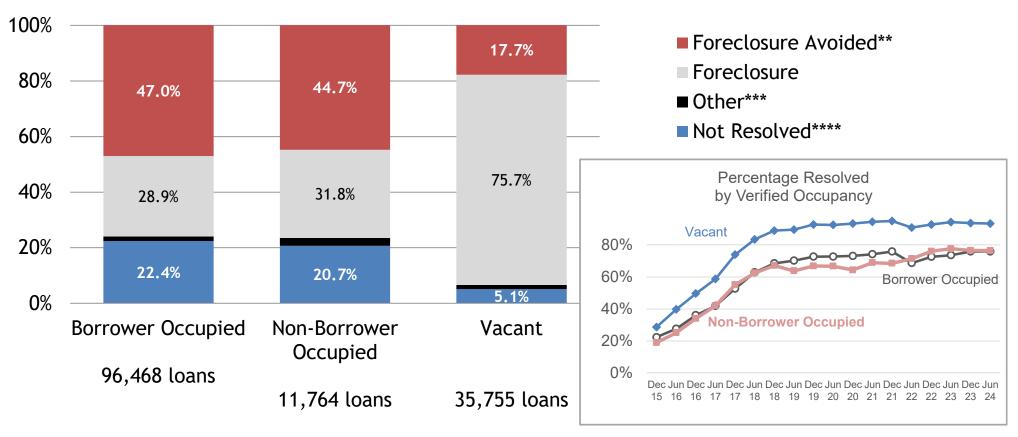

Charts exclude the "Other" category (Whole Loan Sales, Charge Offs, and Repurchases). In month 48, this represented 1 percent of NPL Sales and 13 percent of the benchmark. For information on the number of loans contributing to each month's outcome, see page 27.

Some pools have reached the end of the required four year reporting period. Outcomes for these pools are held constant at the four year mark.

NPLs on homes occupied by the borrower had the highest rate of foreclosure avoidance outcomes (47.0 percent foreclosure avoided versus 17.7 percent for vacant properties). NPLs on vacant homes had a much higher rate of foreclosure (75.7 percent foreclosure versus 28.9 percent for borrower occupied properties). Foreclosures on vacant homes typically improve neighborhood stability and reduce blight as the homes are sold or rented to new occupants. NPL resolution has increased since the beginning of the program for all occupancy statuses.

Loan Outcomes by Verified Occupancy Status*

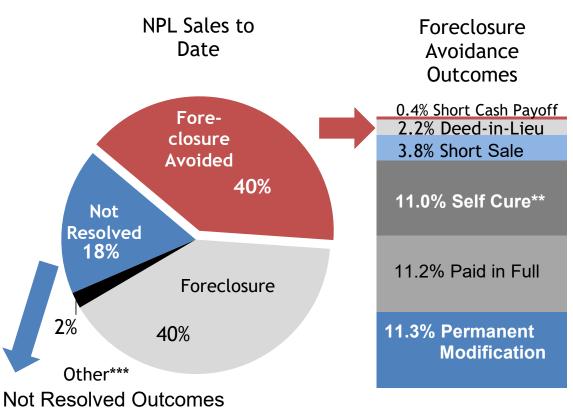

^{**} See page 18 for more information.

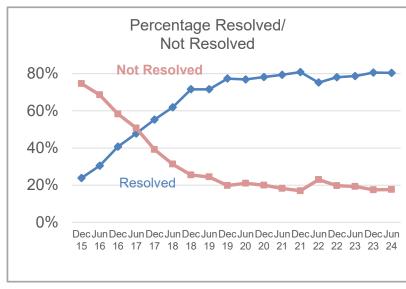

*** Other is defined as: whole loan sales, repurchases by the Enterprises, and charge-offs.

^{****} Not Resolved is defined as: in Trial Modification, Delinquent: Modified Post NPL Sale, and Delinquent: Never Modified Post NPL Sale.

Through June 30, 2024, 80 percent of NPLs sold with reportable outcomes (NPLs sold through December 31, 2023) had been resolved. Forty percent of NPLs were resolved without foreclosure, and 40 percent were resolved through foreclosure.

Loan Outcomes*

0.6% in Trial Modification

4.0% Delinquent: Modified Post NPL Sale

13.0% Delinquent: Never Modified Post NPL Sale

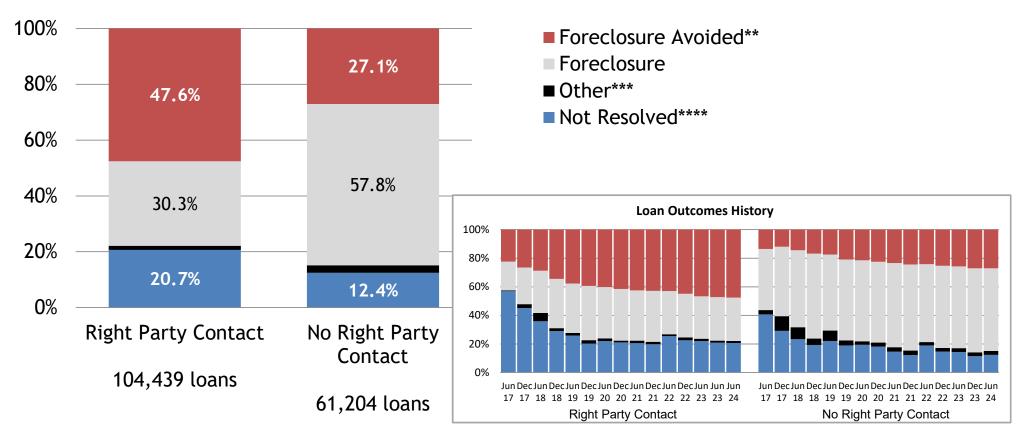

^{*} Some pools have reached the end of the required four year reporting period. Outcomes for these pools are held constant at the four year mark.

^{**} See page 19 for more information.

^{***} Other is defined as: whole loan sales, repurchases by the Enterprises, and charge-offs.

NPLs where the servicer had established contact with the borrower, co-borrower, or trusted advisor ("Right Party Contact") had a much higher rate of non-foreclosure outcomes (47.6 percent versus 27.1 percent with no right party contact). In contrast, when a servicer was unable to establish contact, NPLs had a higher rate of foreclosure (57.8 percent versus 30.3 percent with right party contact). NPL resolution has increased since the beginning of the program for both categories.

Loan Outcomes by Right Party Contact*

^{*} Some pools have reached the end of the required four year reporting period. Outcomes for these pools are held constant at the four year mark.

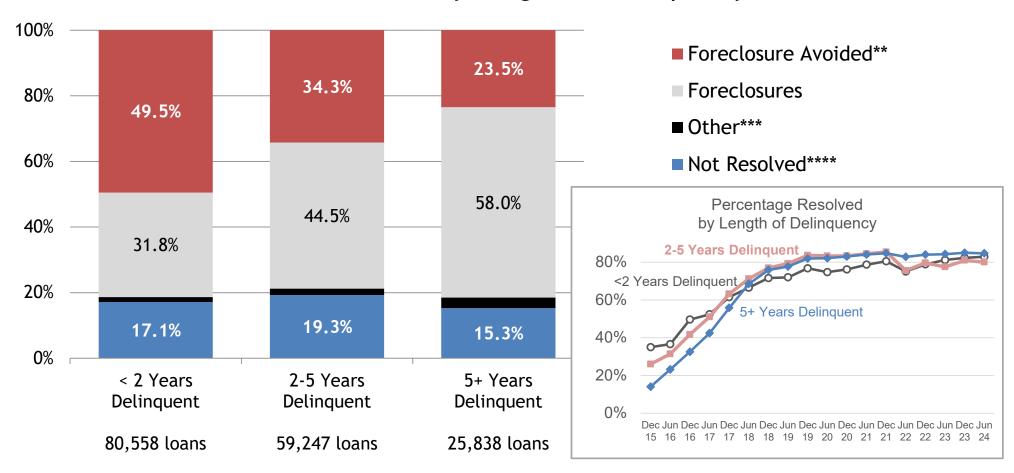

^{**} See page 20 for more information.

^{***} Other is defined as: whole loan sales, repurchases by the Enterprises, and charge-offs.

^{****} Not Resolved is defined as: in Trial Modification, Delinquent: Modified Post NPL Sale, and Delinquent: Never Modified Post NPL Sale.

NPLs with shorter periods of delinquency (less than two years) had the highest percentage of foreclosure avoidance (49.5 percent versus 34.3 percent for 2-5 years delinquent and 23.5 percent for loans 5+ years delinquent). NPL resolution has increased from the beginning of the program for all three categories.

Loan Outcomes by Length of Delinquency*

^{*} Some pools have reached the end of the required four year reporting period. Outcomes for these pools are held constant at the four year mark.

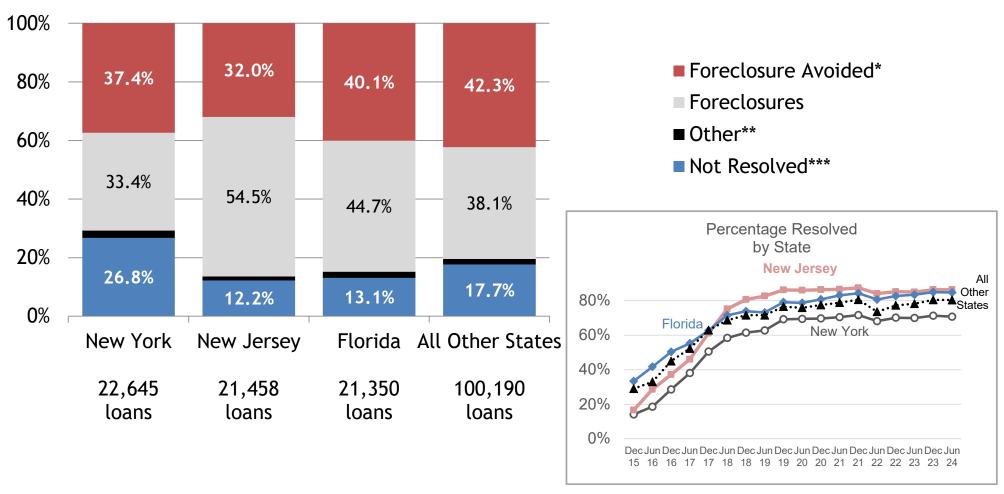

^{**} See page 21 for more information.

^{***} Other is defined as: whole loan sales, repurchases by the Enterprises, and charge-offs.

^{****} Not Resolved is defined as: in Trial Modification, Delinquent: Modified Post NPL Sale, and Delinquent: Never Modified Post NPL Sale.

Of the top three states accounting for the greatest number of NPLs sold, New York had a higher proportion of not resolved loans compared to New Jersey and Florida.

Loan Outcomes by State*

^{*} Some pools have reached the end of the required four year reporting period. Outcomes for these pools are held constant at the four year mark.

^{**} See page 22 for more information.

^{***} Other is defined as: whole loan sales, repurchases by the Enterprises, and charge-offs.

^{****} Not Resolved is defined as: in Trial Modification, Delinquent: Modified Post NPL Sale, and Delinquent: Never Modified Post NPL Sale.

Decreased by 30% to Less Than 40%	2,608	9 %
Decreased by 20% to Less Than 30%	3,555	12%
Decreased by 10% to Less Than 20%	3,732	13%
Decreased by Less Than 10%	3,296	11%
Payment Increase or Unchanged	10,920	38%
Increase	9,380	32%
Unchanged	1,540	5%
Unknown	0	0%
Total	28,922	100%

^{*} Ever-to-date permanent modifications include active permanent modifications as well as modified loans that subsequently re-defaulted, paid off, liquidated or were sold through a whole loan sale.

Some modifications by the new servicers were on loans that had been previously modified that subsequently re-defaulted (see pages 29-39). The previous modifications had already reduced the payment from the original loan terms, constraining the new servicer's ability to offer payment reductions on the new modification. In addition, some modifications were on adjustable-rate mortgages that the new servicer converted to fixed-rate loans, also constraining the ability to reduce payments.

^{*} Some pools have reached the end of the required four year reporting period. Outcomes for these pools are held constant at the four year mark.

Table 10: Permanent Loan Modifications Arrearage and/or Principal Forgiveness*

	Ever to Date Permanent Modifications**	Percentage of Ever- to-Date Permanent Modifications	Average Forgiveness Earned Amount Per Loan (Ever-to-Date Modifications)***	Average Forgiveness Total Amount Per Loan (Ever-to-Date Modifications)
Arrearage and/or Principal Forgiveness	2,443	8%	\$63,601	\$75,515
Permanent Mod, No Forgiveness	26,479	92%		
Total	28,922	100%		

^{*} Includes loans sold before FHFA established further enhancements to the NPL sales requirements in April 2017, which added the requirement to evaluate borrowers whose mark-to-market LTV ratios are above 115 percent for arrearage and or principal forgiveness. Some pools have reached the four year reporting requirement. Outcomes for these pools are reported at the four year mark.

^{**} Ever-to-date permanent modifications include active permanent modifications as well as modified loans that redefaulted, paid off, liquidated or were sold in a whole loan sale.

^{***} Some modifications require forgiveness to be earned over a period of time contingent on the borrower making timely payments. The 'Average Forgiveness Earned Amount Per Loan' column reflects the amount of forgiveness borrowers have earned to date. The 'Average Forgiveness Total Amount Per Loan' column reflects the total amount that could be forgiven if the borrower makes all of their payments timely.

Table 11: Disposition of Property Acquired through Foreclosure or Deed in Lieu*

Property Disposition	Property Count	Percent of Total
Third Party Sale	16,435	23%
Property Sales by Buyer	46,252	65%
Owner Occupant	24,375	35%
Non-Profit	267	0%
Investor	16,306	23%
Unknown	5,304	8%
Not Sold	7,941	11%
Held for Rental	3,991	6%
In REO	3,950	6%
Total	70,628	100%

^{*} Some pools have reached the end of the required four year reporting period. Outcomes for these pools are held constant at the four year mark.

The borrower outcomes provided in this report are based on 165,643 NPLs settled by December 31, 2023, and reported through June 30 2024. These NPLs have been with a new servicer between 6 months and 48 months or more (only the first 48 months are reported). The outcomes reported on the graphs represent averages for all the NPLs that have been serviced up to a given point in time. For example, the first six months of performance is based on the full 165,643 NPLs because all the NPLs have been with a new servicer for at least six months. The last month of performance is based on 54,817 NPLs that have been with the new servicer for 48 months. For charts showing outcome information, see page 12.

Factors to consider in evaluating loan outcomes by pool:

Borrower outcomes for loans sold in each NPL pool are influenced by a number of factors in addition to the loan characteristics. Some of these factors are described below to provide additional context about the pool-level borrower outcomes described on the following pages:

Months Since Transfer

• The more time that has elapsed since transfer to a new servicer, the more likely that the new servicer is further along in resolving the loans.

Average Years Delinquency

• The longer a borrower has not been making payments, the more unlikely it is that the borrower will respond to a solicitation by a new servicer to modify the loan or pursue an alternative resolution.

Verified Borrower Occupancy

• Loans on properties where the borrower is still occupying the residence are more likely to be modified than those where the borrower has abandoned or vacated the property.

In Foreclosure Proceedings

• For loans on which the foreclosure process has started, it is more likely that if there is still an option to avoid foreclosure it will be with a short sale or deed-in-lieu. Loans that are in late stage foreclosure proceedings are more likely to result in a foreclosure outcome.

Geography of Loans

• The timeline to resolution varies by state. Loans in states with longer foreclosure timelines will take longer to be resolved.

Right Party Contact

• Loans for which the servicer has been able to make Right Party Contact are more likely to result in a non-foreclosure resolution.

Glossary

Term	Definition
Arrearages	Past due amounts on delinquent loans. Arrearages include property taxes, interest, homeowners insurance, and any fees paid by the servicer to protect the lienholder's lien.
Charge Off	Cessation of collection efforts on a mortgage when the debt is deemed to be uncollectable. A charge off does not cancel the note or release the lien on the property.
Community Impact Pool Offering (CIP)	Smaller, geographically-concentrated, high occupancy pools marketed by Fannie Mae to encourage participation by small investors including nonprofits and minority and women-owned business (MWOB) buyers. Buyers have two extra weeks compared to buyers of national pools to secure funds to participate in the auctions.
Deed-in-lieu	The borrower voluntarily transfers the ownership of the property to the lien-holder to avoid a foreclosure proceeding.
Extended Timeline Pool Offering® (EXPO®)	Smaller, geographically concentrated pools marketed by Freddie Mac to encourage participation by small investors including nonprofits and MWOBs. Buyers have two extra weeks compared to buyers of national pools to secure funds to participate in the auctions.
Foreclosure	A legal procedure in which a lienholder takes possession of a mortgaged property as a result of the borrower not making contractual payments.
Held for Rental	Property owned and held for rental by a lienholder after completion of a foreclosure or deed-in-lieu.
Judicial States	States where judicial action is required to complete a foreclosure.
Loan to Value	The ratio of the loan amount of the first mortgage to the property value based on a Broker's Price Opinion (BPO) obtained by the Enterprises approximately 60 to 90 days prior to the NPL offering. A BPO is a property value estimate provided by a third party such as a sales agent. A BPO is based on an external review only and does not reflect the condition of the interior of a property. The BPO LTV does not include capitalized arrearages.
National Pool Offering (NAT)	Large, typically geographically diverse pools offered by Fannie Mae.
Non-Performing Loan (NPL)	For purposes of the Enterprises' Non-Performing Loan sales, Non-Performing Loans are defined as loans that have been delinquent for more than one year.
NPL Sales Requirements	Program requirements established by the Federal Housing Finance Agency for the Enterprises' NPL sales.
Paid in Full	Borrower pays the entire amount due, thereby satisfying the lien.
Permanent Modification	The terms of a mortgage loan are changed in order to change the borrower's payment.
Real Estate Owned (REO)	Property owned by a lien-holder after completion of a foreclosure or deed-in-lieu.
Resolved	Transferee servicer has completed a foreclosure or non-foreclosure resolution.
Self Cure	A delinquent borrower reinstates the loan without assistance from the lien-holder.
Settlement Date	The date on which the NPL sales transaction closes and the Buyer acquires the NPLs.
Short Cash Pay-Off	The lienholder releases the lien in exchange for a cash payment from the borrower of less than the outstanding debt.
Short Sale	A delinquent borrower sells a property for less than the outstanding debt and the lienholder agrees to release the lien.
Standard Pool Offering® (SPO®)	Large, typically geographically diverse pools offered by Freddie Mac.
Third Party Sale	A third party entity purchases the property at the foreclosure sale/auction above the initial bid set forth by the lien holder.
Unpaid Principal Balance (UPB)	The loan's actual principal balance owed to the Enterprise. The unpaid principal balance does not include any arrearages.
Whole Loan Sale	The sale of loans by the initial NPL Buyer to another investor, nonprofit, etc.
