As a member of the Federal Home Bank of Boston for more than a decade, I am writing to communicate the value and impact the FHLBBoston has had on Bellwether Community Credit Union and our members. As a small community-based financial institution serving a state that is largely rural, the FHLBBoston provides a key source for us to manage liquidity.

We have also utilized their Jobs for New England program to help our business members create and preserve jobs and Equity Builder Program to assist lower income members finance home purchases.

We consider FHLBBoston a strategic partner and rely on their services to enable us to efficiently and effectively serve our members.

Sincerely,
