Dear FHFA,

Thank you for keeping Freddie & Fannie alive. Please do whatever you can to see that these two companies are released from conservatorship as soon as possible as it very clear that they no longer needs to be governed in this manner.

My husband and I believe in America and all that she stands for. We believe in supporting businesses and we believe in the old fashion handshake. Your word is your bond. Conseratorship is not a "forever" thing.

My husband and I invested all of our savings into Freddie and Fannie before the The Sweep. We watched our entire Retirement investment go out the window. We own a small "mom and pop" store so we dont have a big company blanket wrapped around us to protect and provide for us. Its totally up to us. We decided to invest in America, to help her out in her time of need.

Now my husband is facing Acute Leukemia, our medical bills are mounting and all of our savings was invested in Freddie and Fannie. He is worried about our investment and when he is gone, what will I have to get by with... It is so very important to us that you please return Freddie and Fannie a fully functioning independent companies that they were.

This whole issue is not just about The Big Boys (banks, politics, etc) The investors of Freddie and Fannie are also "real everyday Americans"

Please help us.

With Sincere respect,  
Christine Corey  
Sunapee, NH 03782
