Re: Notice of Proposed Rulemaking and Request for Comments- Members of the FHLBanks (RIN 2590-AA39)

Dear Mr. Pollard:

I am writing to express my concerns about the notice of proposed rulemaking regarding membership eligibility in Federal Home Loan Bank (FHLBanks) put forward by the Federal Housing Finance Agency (FHFA). The proposed rule includes significant and unnecessary changes to long-standing membership rules for the FHLBank system. The proposed changes are inconsistent with Congressional intent and the Federal Home Loan Bank Act (FHLBank Act). For these reasons First State Bank vehemently opposes this proposed rule.

I am President and CEO of First State Bank. Our institution provides lending across all of our community with a focus on residential home loans and agricultural production loans. FHLB Des Moines is one of the very few sources community banks have at their disposal to offer long term fixed rates to our customers. Without this source of funding we could not effectively compete in these lending areas. We currently have in excess of ten million dollars in various real estate loans that we fund in whole or in part with Federal Home Loan Bank wholesale borrowings.

The proposed regulation on FHLB membership creates many concerns for our bank. While my bank would meet the proposed rule requirements of the proposed rule today, I feel that the rule establishes a problematic precedent. There remains a distinct chance that at some point in the future, due prudent management of interest rate risk, economic or regulatory changes, our institution could fail the test. Our bank should be free to manage our balance sheets in light of what's best for us, not the demands of a regulator. Not to mention, the proposed regulation conflicts with concerns from financial regulators that financial institutions reduce holdings of long-term fixed rate mortgages and sell them in the secondary market.

Broadly speaking, the FHLB Des Moines serves as a critical source of liquidity for financial institutions in Iowa, Minnesota, Missouri, North and South Dakota. They have proven to be a reliable and competitive source of liquidity for all of our financing needs in all economic environments. This rule, if adopted, would remove the certainty that the FHLB Des Moines can be counted on to be a reliable source of liquidity in all market conditions.

Access to advances is critically important to our bank because FHLBank liquidity allows us to offer competitive rates to our members that we might not otherwise be able to offer. **This is our main liquidity source in times of need.** Additionally, having a credit line and borrowing capacity with FHLB Des Moines promotes the safe and sound management of our institution.

(continued)

It also seems incredibly disingenuous to eliminate captive insurance companies from FHLB membership at a time when housing finance is at risk with only a small private secondary market and Fannie and Freddie in conservatorship. This is the time to encourage the development of additional markets for both single and multifamily mortgages. Financial institutions are being discouraged from holding mortgages meaning that we need to see the development of new outlets. The FHLBanks are a logical place to create these new models. Why would you eliminate opportunities rather than work with us to develop new systems of finance?

Because the proposals would harm FHLBank members and hurt housing, credit and economic growth, we ask that the FHFA withdraw the new membership rules contained in its September 12, 2014 Notice of Proposed Rulemaking and work with FHLB members to preserve the FHLBs as a reliable partner of its members that benefits local lending institutions, communities, housing, homeownership and the nation's economy.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Newton". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
