Re: Notice of Proposed Rulemaking and Request for Comments – Members of Federal Home Loan Banks (RIN 2590-AA39)

Mr. Pollard:

As an affordable housing partner that works closely with community lenders and FHLBank Pittsburgh, we have observed firsthand the important role that the FHLBank plays in providing funding for community banks. The proposed rule will profoundly change the relationship between FHLBanks and their member banks that is so important to the affordable housing community in their local markets.

This rule will make membership in the FHLBank less attractive to banks and credit unions since continued access to FHLBank funding will be contingent on new ongoing asset tests. This will no doubt result in decreased lending by the FHLBanks which will hurt earnings. As you know, 10% of the net earnings of each FHLBank funds its Affordable Housing Program (AHP) since 1990, FHLBank Pittsburgh has provided approximately \$183 million in AHP grant awards that have created more than 28,000 units of housing for low or very low-income residents. If current and prospective membership in an FHLBank is threatened, FHLBank Pittsburgh's ability to provide AHP grants to affordable housing partners will be diminished. In short, FHLBank Pittsburgh will have fewer funds available to provide AHP grants to support very-low and low-income housing. The recent HMDA data for 2013 shows the share of home mortgage loans to borrowers with incomes at or below 80% of area median income (borrowers served by FHLBank's AHP program) fell to only 26% of the total mortgage loans made in 2013. Consequently, a reduction in funding for housing for low-income borrowers at this time of fragile housing and mortgage markets is particularly damaging. The partnership that results between banks, affordable housing groups and FHLBanks for a successful AHP program saves at-risk families, veterans, senior citizens and people with disabilities from falling through the cracks. Working together, we keep people off the streets and help stabilize lives and communities.

Milford Housing Development Corporation (MHDC) has personal experience with the Federal Home Loan Bank of Pittsburgh's Affordable Housing Program. MHDC has partnered these funds successfully into our Self-Help Housing Program to provide our families vital and much needed resources to become a homeowner. About a third of all our Self-Help families have AHP in them. These are very low and low income families that are being left behind in our market, but

are vital members of the community. They are Correction Officers, poultry workers, bus drivers, hair dressers, home health care workers that otherwise would not be able to afford to live in our community. If they can't afford to live here, they can't afford to work here.

The AHP grant's role in MHDC is also now expanding. There are many homeowners in our communities who cannot afford to make vital repairs on their homes. We are trying to make these homes warmer, safer and drier. AHP is helping us make that happen for these residents. With shrinking resources, the Federal Home Loan Bank and the AHP are seen as a vital partner and an increasingly important resource.

We may not be FHLBank stockholders, but we are stakeholders. The neighborhoods we serve require access to credit to build new housing, rehab existing stock and stimulate community investment. An arbitrary asset test for continued FHLBank membership will achieve the opposite effect. Our relationship with vulnerable populations with urgent needs for safe and affordable housing leads us to conclude that restricting the continued access of banks and credit unions to FHLBank membership will hurt communities.

Milford Housing Development Corporation strongly urges FHFA to withdraw RIN 2590-AA39.

Sincerely,
