Re: Notice of Proposed Rulemaking and Request for Comments – Members of Federal Home Loan Banks (RIN 2590-AA39)

Dear Mr. Pollard:

Thank you for the opportunity to submit comments on the notice of proposed rulemaking (“NPR”) in which the Federal Housing Finance Agency (“FHFA”) has expressed its desire to revise its regulations governing Federal Home Loan Bank membership. As a member of the Federal Home Loan Bank of New York (“FHLB NY”), this proposal has the potential to significantly impact our business. The proposed regulation threatens both the strength and the value of the partnership between the Federal Home Loan Banks and their members.

The true value of Federal Home Loan Bank membership is reliability and the ease of access to credit. FHLB is our primary source of daily funding for loan growth, which in our case has been in excess of 10% annually for the last four years. And it has been true in every economic cycle for more than 80 years, over which time the Federal Home Loan Banks have repeatedly proven themselves to be a reliable funding partner for their members.

However, the NPR – in creating ongoing requirements for a financial institution to remain a member of a Federal Home Loan Bank – introduces an element of uncertainty into this reliability, thereby diminishing the value of Federal Home Loan Bank membership. Further, this proposed rule would reduce liquidity, tighten credit and reduce available private sector funding for affordable housing and community development.

At the end of the third quarter of 2014, the FHLB NY had \$99.5 billion in advances out to its members. Every dollar of this funding is vital to the communities we serve. And just as our communities rely on us to meet their needs, we rely on the FHLB NY to be there when we need it. This reliability cannot be jeopardized.

Accordingly, I respectfully request that the NPR be withdrawn, or, at the very least, that subsequent membership asset holding tests be eliminated from the rule.

Sincerely,

E. Peter Forrestel II
President and CEO
