I am writing to express my concern over the impact of the proposed capital rule on the FHLBank of Cincinnati and its ability to support its housing mission. I represent Appalachia Habitat for Humanity, a nonprofit organization providing housing services to low-income families and individuals in Scott and Morgan Counties, Tennessee. My organization has partnered with the FHLBank on many different occasions in which nearly 100 families have been provided housing through \$375,000 in grant funds.

FHLBank funding is often the critical first level of financial commitment to our projects. It helps leverage other sources of public and private funding and bring together the necessary partners and leaders for effective development. As the highly successful Affordable Housing Program is based on 10 percent set-aside of annual net profits, we all have a stake in the success and profitability of the FHLBank.

The FHLBank has demonstrated its commitment to affordable housing over and above its mandated Affordable Housing Program. The proposed regulation would likely to shrink the size of the FHLBank, reduce its profitability, and increase costs to its members, all to no apparent benefit. Why penalize the FHLBank member lenders, housing partners and our at-risk clients? With fewer state and federal housing dollars available for targeted affordable housing, I strongly urge you to reconsider this restrictive regulation that will result in lower FHLBank profits and, by extension, fewer residents gaining access to decent housing.

Sincerely,
