Subject: RIN 2590-AA53 - Restore PACE programs now

Aug 16, 2012

Mr. Alfred Pollard
1700 G Street, NW, 4th floor
Washington, DC 20552

Dear Mr. Pollard,

[Please withhold my email and home addresses from the public record.]

I urge the Federal Housing Finance Agency to reverse its position and restore Property Assessed Clean Energy (PACE) programs that help property owners like me make energy efficiency and renewable energy upgrades to our homes, businesses and factories. **DON'T PUT THE INTERESTS OF BANKS LIKE FREDI & FANNI AHEAD OF THOSE OF CITIZENS TRAPPED IN SUB-STANDARD HOUSING WITH INSUFFICIENT CAPITAL FOR ENERGY IMPROVEMENTS.** Help citizens out with PACE, and they'll do the right thing for themselves and the country and it will pay back over time out of the energy savings.

PACE programs save homeowners and businesses money on energy bills, create much needed local jobs, reduce our dependence on coal and other fossil fuels, and cut pollution that harms our health and environment.

By enabling renewable energy and energy efficiency improvements that benefit homeowners and lower utility bills, PACE programs also reduce existing lenders' default risk and improve home values.

I urge the FHFA to reconsider its position opposing PACE in its recently proposed rule and to reinstate these programs. I also urge the agency to move forward with adopting the underwriting standards outlined in H.R. 2599, which provide the type of risk reduction strategy needed to ensure that PACE benefits all residential mortgage stakeholders. Hundreds of communities in the 27 states that have passed PACE-enabling legislation are counting on your agency to reinstate these programs at a time when we need them most.

Sincerely,

Ms. Chris Snyder
