Submitter Info:

Comment: The PACE program is essential to my personal and families welfare. I work for a small, locally owned solar installation business. Last year, because our local PACE program was stopped, our company did 1/2 as many solar installations as the prior year. Therefore, my job is not nearly as secure. We don't have enough work! PACE will increase the number of normal homeowners that can afford to install a solar electric system on their property.

It is essential to my family to restart the PACE program. Please consider the impact the program will have on the creation of more green jobs.
