Public Comments on Mortgage Assets Affected by PACE Programs:=====

Title: Mortgage Assets Affected by PACE Programs
FR Document Number: 2012-01345
Legacy Document ID:
RIN: 2590-AA53
Publish Date: 1/26/2012 12:00:00 AM

Submitter Info:

Comment: As a former homeowner who made expensive energy efficiency upgrades on my home, and as someone who desires to be a homeowner again and make my new home more energy efficient, I urge you to change the rules governing property assessed clean energy (PACE) programs. This common-sense financing has worked well in places like Boulder, CO, where it also resulted in the creation of over 100 jobs. This option should be available to more residential property owners throughout the United States.

As our climate changes rapidly (scientists in Wisconsin, where I live, are projecting a 4-9 degree F rise in average temperatures by the year 2050), we must utilize proven ways to allow more property owners to both slow the rate of warming and cope with rising energy costs.

Thank you.
