Subject: Comments re RIN 2590-AA53

Mr. Pollard,

I would like to submit comments in favor of re-establishing PACE programs to encourage clean energy development. PACE programs can drive energy projects that result in significant economic activity, federal, state and local tax revenue and jobs. Some of the most vital efficiency and clean energy development occurring in this country is taking place at the local level. PACE provides an effective tool for local entities and homeowners interested in spurring development.

Best,

Jason
