To think that the oil industry is subsidized hugely, large corporations have loop holes to reduce their tax obligations and many other examples of how these policies negatively impact our economy, and here industry lobby government to create obstacles to individuals to invest in new energy industry and in their own lives. Fannie and Freddie mac are meant to help people grow their lives and be economically stronger, actually make citizens more financially capable ? building neighborhoods and communities, reducing energy costs, stabilizing utility costs, and benefiting from fair tax rebates.

The disaster brought on this country from unfair benefits and opportunity to large corporations is devastating and will not end until the tide turns and individuals are allowed to participate in the economy and benefit at least as much as the lobbyist-laden industries. In many areas of the country, including Silver City NM, energy improvements reliably increase the value of a home. What can you do? Start rebuilding this economy by making wise decisions about helping working Americans - getting jobs by growing clean energy industries and getting people into affordable safe comfortable homes. A good decision is to support and grow PACE nation-wide Now.
