General Alfred Pollard

Dear General Pollard,

Here is a statement to memorize. and to repeat to your friends and family:

Any culture which is based upon the hyper-exploitation of non-renewable natural resources is non-sustainable.

learn it. understand it. think about the world your grandchildren will inherit. they won't care if you had a lexus. they will want to know whether or not they can eat the fish in that stream. and if not, why not.

this fossil fuel addiction is like a crack addiction. we don't need it to have a decent life. but we are destroying the systems upon which our lives depend. there is no denying this simple truth.

the time for action is NOW.

----God

Sincerely,

Dr. Reginald Barnes
