Subject: RIN 2590-AA53 - Restore PACE programs now

Mar 16, 2012

General Alfred Pollard

Dear General Pollard,

[Please withhold my email and home addresses from the public record.]

I urge the Federal Housing Finance Agency to RESTORE Property Assessed Clean Energy (PACE) programs that help property owners like me make energy efficiency and renewable energy upgrades to our homes, businesses and factories.

We were hoping to utilize the PACE program to install solar on our home, thus saving money on energy bills while helping to reduce dependence on fossil fuels and cut pollution.

PACE would have been an additional huge benefit to the country and the economy by creating much needed local jobs.

By decreasing our monthly costs, PACE would have helped us avoid default risk and would have improved our home value.

Hundreds of communities in the 27 states that have passed PACE-enabling legislation are counting on your agency to reinstate these programs at this critical time.

Please withdraw the July 2010 directive that froze PACE programs and allow these programs to move forward.

Sincerely,

Ms. Sarah Tamor
