Please consider passing PACE. It is a win, win, win for people, business, and the environment. I understand concerns posed by mortgage holders, however, these are surmountable, and the greater good will done. We need to put people to work, and PACE is a significant step toward getting many unemployed, but skilled workers, back to work. As you know these programs cover considerable trades and products and services, allowing manufacturers, service providers, and new technology to all scale, and help our economy.

PACE is good for neighborhoods, the economy, and our country.

Kind Regards,
