RE: RIN 2590-AA53 Mortgage Assets Affected by PACE Programs; Comments on
Advanced Notice of Proposed Rulemaking and EIS Scoping Comments

Dear Mr. Pollard:

I urge you to take a closer look at PACE. I've studied the facts, and it has great benefits to individuals, the economy, environment, businesses, and communities. I will save people money and help the economy by getting a lot of contractors back to work. It is not a "loan" program as has been stated often by misinformed individuals. I've found the website at <http://www.pacelegislation.com/> to be a good source of unbiased information.

Best regards,
Micah Johnson
