RE: RIN 2590-AA53 Mortgage Assets Affected by PACE Programs; Comments on
Advanced Notice of Proposed Rulemaking and EIS Scoping Comments

Dear Mr. Pollard:

Here in Boulder County, over 600 of us homeowners have taken advantage of the PACE program to invest in energy efficiency improvements and renewable energy. According to the county commissioners, there have been only 2 defaults on the properties, well below typical risks and ridiculously low in this economy.

There is no validity to any perceived increased risk to your mortgages because of PACE program improvements, and it appears, as seems logical, that the opposite is true.

Please restore the program so you can improve your portfolios, create thousands of jobs and lead us toward an energy efficient future.

Sincerely,

Rick Levine
