The economy is stagnate. Foreclosures are staggering in their numbers. Nothing has worked to date. Private transfer fees and the cash that would be generated immediately upon funding would be a great stimulous to our fragile economy. Construction of new structions and debt reduction would create many jobs and help hundreds of thousands of people who are now struggling to survive. Our leadership, President , House and Senate Representatives, should study private transfer fees and become aware of the positive impact they would have on our citizens and the overall economy of our great nation.
