Subject: Discontinuing Freddie Mac & Fannie May  
To whom it may concern:

I am an owner of a manufactured home in Florida.

We have seen the value of our modest home and others in our area decline substantially in the last few years.

Please be aware discontinuing availability of loans for mobile and manufactured homes will further erode the value of our home since potential buyers will not be able to make purchases if they require financing for their purchase.

Our senior manufactured home park has many owners who are on retirement income. Further reduction of the value of their homes will add to the destructive forces to their well being.

I implore you to avoid ending financing for manufactured homes and help us preserve our home values.

Respectfully,

William J. Appel
