To Whom It May Concern:

We are very dismayed that manufactured home financing would be limited to purchases as "real property" only and not personal property. Many consumers rely on financing their home as personal property as the ONLY means of financing available to them. Persons buying a home that goes into a park is unable to obtain real property financing. Some consumers are placing their home on relatives' land and the purchasing of the home as personal property is the only option for them. Some consumers of manufactured homes, even if they own the property upon which the home is placed, do not wish to "tie-up" the home with the real estate for many varied reasons.

To prevent the purchase of manufactured homes as personal property is to deny many persons a right to a home.

Thank you,

Sue Dutro
