Dear Mr. Pollard,

Attached to this e-mail you will find the signatures of many concerned residents that are truly enlightened and concerned over the issues that you brought to light in your recent letter. All were given a copy of your letter and a short message from our office that stressed the need for them to become personally involved regarding this issue. Please pass on these signatures to those including yourself who will speak for these individuals be it that many are seniors who have been law abiding tax payers for decades and should not be penalized for choosing a very affordable and peaceful way to live out their retirement years if they choose to sell or relocate.

Thank you for your support on this issue and your are to be commended for looking our not just for yourself but for all who are effected.

Sebrina K. Turner
